### **DETAILED ACTION**

1. In response to the Amendment filed on November 26, 2003, claims 1-27 have been cancelled and the newly added claims 28-43 are pending.

#### ***Election/Restriction***

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claim(s) 28-33, 42 and 43, drawn to the programmable training device for instructing a user on the appropriate medical steps for the operation of an automatic external defibrillator device, classified in class 607, subclass 5.
  - II. Claim(s) 37-41, drawn to the training electrode for use with a CPR manikin and an interactive AED training device, classified in class 434, subclass 265.
  - III. Claim(s) 34-36, drawn to the interactive electronic/defibrillator training device for obtaining indirect information about a simulated patient's condition from an operator, classified in class 434, subclass 262.
3. The inventions are distinct, each from the other because of the following reasons:

Inventions I, II and III are prima facie independent and distinct inventions due to their recitations of distinct and specific structures. Invention I is directed to the structure of the programmable training device for instructing a user on the appropriate medical steps for the operation of an automatic external defibrillator device. Invention II is directed to the structure of the training electrode pad. Invention III is directed to the structure of the interactive

Art Unit: 3713

electronic/defibrillator training device for obtaining indirect information about a simulated patient's condition from an operator. Because these inventions are distinct for the reasons given above and has acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Joe H. Cheng whose telephone number is (703)308-2667. The examiner can normally be reached on Tue.- Fri..

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Derris Banks can be reached on (703)308-1745. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
